

Richmond Marine
Mini Sprint
 the tuned-up
minisail

Richmond Marine have had Ian Proctor tune-up the enormously popular 'MiniSail' to give the racing enthusiast a car-top boat with all the go-fast gear as standard. See it now, the racing version of the proven 'MiniSail': with race-cut sail, Cunningham hole, multi-purchase kicking strap, mainsheet horse, clew outhaul and tracked boom. All spars are black anodised. Hull is brilliant white. Deck is sharp mustard colour. A truly competitive boat, with 5½ thousand in her class, at a competitive price direct from the factory to you. **Go fast with 'MiniSprint.'**

Review the fleet in person at any Skipper Boat Centre.
 Or send for illustrated literature.

**maxi
 speed**

**Mini
 Sprint**

For sheer speed you'll want
 the Richmond Marine MiniSprint - Fastest
 single-hander of her size off the wind

Just like a racing car, she's designed with high power to weight ratio in mind. Her large sail area couples with a lightweight hull enables her to outplane not only most other single-handers, but even many class dinghies. Moreover, MiniSprint is the *only single-hander with sliding seat:*

enabling you to carry full sail when similar dinghies are spilling wind, slowing down or tipping over. For inexpensive single-handed racing, you can't do better than MiniSprint. See her for yourself at any Skipper Boat Centre or send for fully illustrated literature - now.
